INVESTMENT OBJECTIVE

The Sub-Fund is a fund-of-funds that aims to deliver a total return through investing in a diversified range of assets in proportion with its long-term risk profile, which is characterised as MEDIUM-HIGH. This means that the Sub-Fund will indirectly take a more growth orientated exposure to equity markets, with such exposure to equity or equity-linked securities typically ranging between 60% and 100% of its assets, with a neutral position of 76.5%, with additional exposure to other asset classes which include fixed income, alternatives, and cash.

RISK INDICATOR

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

RISK CONSIDERATIONS

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you. This product does not include any protection from future market performance so you could lose some or all of your investment. The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator: liquidity risk, counterparty risk, custody risk, operational risk, and risks arising from the use of derivatives.
