INVESTMENT OBJECTIVES

The Global Alpha Fund (the "Sub-Fund") will invest in a diversified portfolio of fixed income securities to achieve a positive absolute return over rolling three-year periods. The Sub-Fund will generate income derived from underlying fixed income securities. The Sub-Fund will achieve diversification by investing in a basket of fixed income securities with varying maturities, from a variety of global issuers and will be able to take exposure to instruments to hedge interest rate risk.

PERFORMANCE (%)

	1M	3M	6M	1YR	2YR	S.I.*
Global Alpha Fund*	2.85	1.04	5.70	5.91	9.78	14.28

RISK INDICATOR

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

RISK CONSIDERATIONS

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator: liquidity risk, counterparty risk, custody risk, operational risk, and risks arising from the use of derivatives
