INVESTMENT OBJECTIVE

GCC Short Duration Income Fund Open Ended IC PLC (the "Fund"/"GCC Short Duration Income Fund") is an actively managed fixed income fund that aims to generate a regular stream of fixed income returns and cash distributions through investments in fixed income securities (and any other asset class that may be appropriate from time to time) to seek to achieve an attractive risk-adjusted return, whilst employing strategies to reduce price and market risk and mark-to-market volatility. This is a performance target and is not guaranteed.

RISK AND REWARD PROFILE

The risk and reward indicator illustrates where the Fund is positioned in terms of its possible risks relative to its potential rewards. The higher the Fund's position on this scale, the greater the possible reward, but also the greater risk of losing money. This risk indicator is calculated using historical data, which cannot be used as a prediction for the future. Therefore the risk classification may change over time. Even if the Fund is in the lowest risk class you can lose money, as no investments are entirely risk free.

RISK CONSIDERATIONS

The Fund invest will mainly invest in sovereign and corporate fixed income securities. The securities will have a credit rating of B- or higher and the Weighted Average Rating Factor ("WARF") of the net asset value of the Fund will be maintained at greater than or equal to BBB-. The Fund may only invest in issues where the country of risk is in the GCC. The Maturity Date may also be extended and the Fund may invest in longer-dated securities. The Fund will therefore be subject to credit risk, interest rate risk, volatility and maturity price risk. Investors who do not hold their Shares to the Maturity Date may also suffer significant losses. At this time, the level of the risk and reward profile is consequently equal to 2.

For full details of the risks the Fund may be exposed to, please refer to the Fund's Prospectus.
